Adaptive Translation

- 'Adaptation is the least literal and most free type of translation. It abandons the strict linguistic aspect of translation and concerns itself with the cultural one, though it inevitably is concerned with the linguistics also. Adaptation is one of the most appropriate and effective modes of expression to convey the same meaning to another culture.

From an article by By Mehdi Asadzadeh & Afaf Steiert

ADAPTATION

AI translation

No such thing as a
simillimum Par 156

- It is almost impossible for the symptoms of the medicine and those of the disease to cover one another as exactly as two triangles with equal sides and angles.

No one perfect translation

§9 Dudgeon

In the healthy condition of man, the spiritual vital force (autocracy), the dynamis that animates the material body (organism), rules with unbounded sway, and retains all the parts of the organism in admirable, harmonious, vital operation, as regards both sensations and functions, so that our indwelling, reason-gifted mind can freely employ this living, healthy instrument for the higher purpose of our existence.

Perfect?

- I changed '*man*' to '*life*'
- I prefer *flow* to the static *state*.
- I changed '*spiritual*' to '*Dynamics*'.
- I chose '*regulates*' over '*governs*' and omitted *autocracy*. Less oppressive.
- I replaced *admirable, harmonious, vital operation* with, *inspiring, harmonious rhythm*.
- . No one says *unbounded sway* these days, so I replaced it with *synchronising*.
- *Indwelling, reason-gifted mind* has become *innermost, reason-blessed mind*. *Gifted* is associated with talented or genius today.
- I changed '*employs*' to '*directs*', more positive and cooperative.
- I deleted *our existence*. to *All existence*

§9

- In the healthy flow of life, the dynamic vital force regulates the material organism via sensations and functions, animating and synchronising all parts of the body in an admirable, harmonious rhythm, so that our innermost, reason-blessed mind can freely direct our living, healthy being towards the higher purpose of all existence.

WHAT IS THE PURPOSE OF LIFE?

higher purpose of existence-Hahnemann

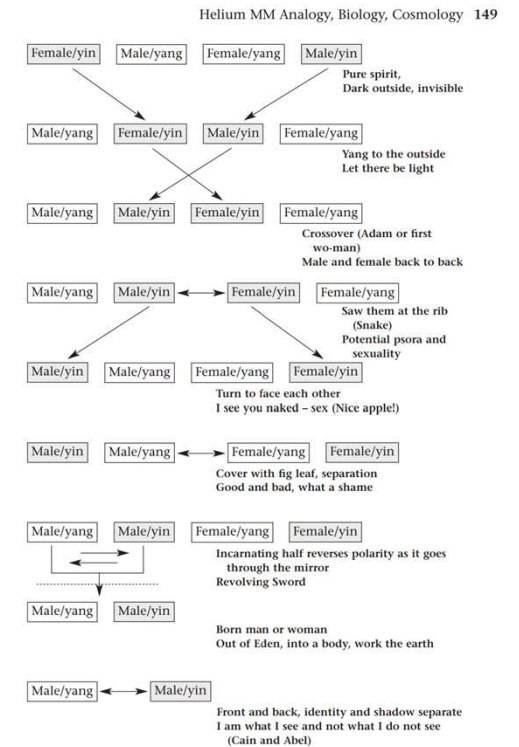

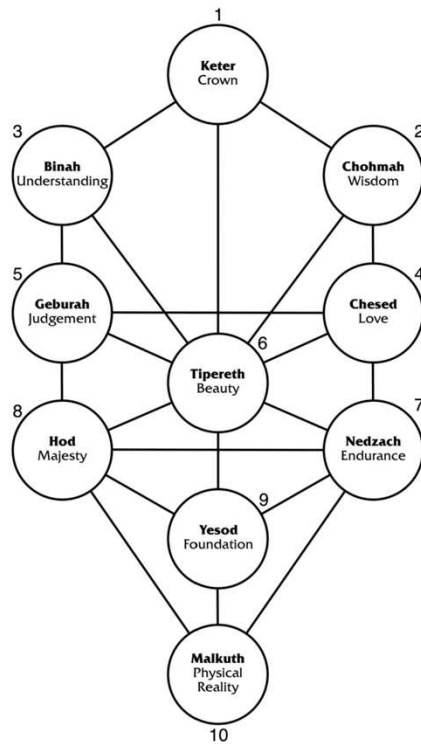

Figure 9.11 Graphic illustration of the sequence of soul evolution from creation to total incarnation

Kabbalah Organon §9

The benevolent universal divinity bestows a collective intention on the unified sea of souls, which allocates a unique fragment of this purpose to each individual soul, that gifts it to an intelligent consciousness, so that, via sensations and functions, this mind may animate the healthy being in which it dwells in an admirable, unlimited, harmonious dance of life dedicated to fulfilling our share of the collective mission.

Fourth dimension

Fourth dimension

Krypton

- I am in a continuum present rather than in compartments of before, past, later, and so forth.
- The concept of time has changed.
- It feels more as a continuum present rather than in compartments of before, past, later, and so forth.
- Very conscious about the present moment, continuum present.

The Krypton Cross

Crosses, the number four and square angle are prominent in the

- Dream of right-angles.
- Celestial equators 90 degrees.
- The Hebrew 4th letter “D” has an angle of 90 degrees.
- Four 90 degrees make a circle. That would be 360 degrees. 10 times Krypton's 36. However, four times 90 degrees also make a cross.
- On the radio, they were talking about Christ from cross to grave to sky. You need the cross. People carry their crosses all the time.
- There are 4 arms not joined at the centre. Joined by light, not matter.
- Travelled to the underworld with the sword crossing my heart bearing all the unbearable pain.
- Thoughts about the heart. Hearts are quartered like the 4 quarters of Jerusalem. Blake was talking about the fourfold division of Jerusalem - every part and thing and person is in 4 quarters.
- In my mind's eye I was seeing magic squares. I am feeling so cross.

CHRONIC DISEASE
NO WAY OUT

KRYPTON= GATEWAY TO KRONIC DISEASE

- Krypton marks the descent into irreversible and desperate chronic disease, where time increases rather than solves pathology. The remedy relates to the word 'chronic'.
- Krypton, the fourth noble gas, has three noble elements above and three below, hence it is the fulcrum, the point of cross over from ancient to modern, from childhood to maturity, from innocence to sexuality, from life-wards to deathwards, from acute to chronic, from playground to mortgage. It is the point of stepping through the mirror, where the world crosses over and becomes cryptic.

I feel I'm sinking.

I feel I'm sliding down into somewhere,.

"Slip sliding away, Slip sliding away, the nearer destination the more you slip sliding away.." The song for the proving..

we are sliding helplessly down from lofty mountain of love and there is nothing we can do about it.

CHRONIC TIME DISEASE

- I've recognised in myself an inability to be here and now. I always work towards some goal 'out there', thus sacrificing the present.
- I'm losing it; time is deluding me. Important stuff is becoming unimportant and unimportant things take on great importance.

Through the mirror

- Passed through Oldhill, for which the sign read Hold Ill (holding on to being ill - the security of having symptoms) and at Snow Hill-the sign reads Now Hills.
- Writing right to left.
- Amy also spells Yam and May if you change the letters around
- PHAT! A word used to bring a corpse back to life. Also used backwards TAHP.

JABBERWOCKY.

'Twas brillig, and the slithy toves
 Did gyre and gimble in the wabe;
 All mimsy were the borogoves,
 And the mome raths outgrabe.

CC – numbness and pain

Had fatty lump/lipoma removed in Nov. 22 and now is still numb from anaesthetic.

Pain & numbness at site of injection. Pain extends around the area.

Female – on family planning, menses stopped. Had patch for 5 yrs but menses didn't come back and then

Got injection last Oct. Has 7 kids.

Chest – palpitations at times. No modalities.

Appetite- likes salty foods

Stool – At times gets diarrhoea

Sleep – fine.

Dreams – used to get dreams of dead people. Dreams of coffins

Mind – seeing coffin she has thoughts in her mind about coffins.

Happy, when angry she speaks out and talks a lot. Vomits out the words.

Fears – funeral

Analysis I

Analysis

Layered case. Lipoma, on top comes the injection. Cannot mix them

Suppressed menses long term. Have to address the pain and numbness as it is her main complaint.

Main points

Injection – smallest totality. Possible nerve was hit.

Lipoma

menses suppressed.

Palpitation – possible from suppresses menses

Coffin – occupied w death

Analysis II

NBSW or part of the totality?

Look for common denominator

How to cut a cake

CROT H LOOKS GOOD!

But wait....

Cause CROT C looks better

Rattling loquacity,

DEATH and dying.

Thoughts dwell on death. Fear of death, as soon as he is alone. Thoughts of death when alone. Dreams of corpses.

Hears nothing, and again sees the spectre of death, as a gigantic black skeleton.

Mangiavori case: I only dream about coffins, white ones and I see myself being pregnant... then this image disappears and I only see coffins.

They are coffins hanging in the air... and then there's a glare of light and I see myself being pregnant but it leaves me cold; it doesn't frighten me

Rx- Crot-c- 12c

Addresses all issues suppressed menses, expressed anger, loquacity coffins, injections, palpitation

Rx crot c 12c daily

>>>>

Menses returned heavy flow~!

She is stopping contraception

No more pain or any problems

No bad dreams

Digestive, gas and stomach

RX lac lupinum 12c

31/10/2022

No headaches!

No flatulence, gone, the gas has reduced

Husband has changed little bit , he can listen to her for the first time, started protecting her from family

No bad dreams

Everything has changed after the rx

Rx lac lup 12c.

Male 54

This patient is Sigsbert, the first “Tanzanian homoeopath”. Sigsbert was tall, upright, calm, charismatic and good looking, with a twinkle in the eye. He came from a noble family, a royal lineage of one of the most intelligent tribes of Tanzania . His clinic was always crowded. I used to call him Ziggy stardust.

At the time I first saw him he had suffered a second stroke in 18 months. Hypertension was the cause, and it had affected his life and health badly. He could no longer work. He had taken many homoeopathic remedies with little help.

“If I get stressed, my blood pressure goes up, I get heart pain, palpitation and difficult breathing and pressure in the head.” He has some heart burn, with severe burning pain in stomach, worse from wheat.

Since the stroke. “I have become sleepy during the day, never had it before. I get very drowsy and want to doze off”. He is putting on weight, has loss of memory, difficult concentration, sleepiness, and visual problems.

Reading is difficult since the stroke. His vision is distorted. “If I look at the number 50 I see 500.”

“I used to write a lot, I love writing, but since the stroke, I don't want to write, it is too big a task for my brain. I have become a lazy writer, no drive. I can't sit in one place for long anymore”.

“After the stroke, my right-hand side was affected. I began seeing an image of a car coming from right side is coming towards me, very disturbing. I can no longer drive, and I can't work.”

“When I read a paper, I miss stuff on the right. When I want to lift a pen on the right, I hold it upside down”.

.

“I am vegetarian to calm down my mind. **I over think**”.

“I have a strong passion for animals, would never hurt an animal”.

He tells me about the high vibration rate of animal protein, from a study and from his own understanding.

He has many **dreams of flying**; he flies very well and is in control.

“I practice meditation”. (At that time unusual for a Tanzanian)

“I am clairvoyant, since 1993 when I began meditation, It began with a peculiar sensation that **my third eye flipped and turned inside out. It revolved 180 degrees.** After this, I started seeing the aura colours of people”.

“If I see a person's top half only, like when they are behind a table, **I see the shadow too**, as if seeing though the table, the non-physical shadow, a faint bottom-half image. **I see the bottom half of anything that is hidden**, like an arm behind a curtain. It is involuntary”.

“When I give a lecture, if someone has an idea, I see a flash of yellow coming out of their vertex even before they say anything. I see lines of energy down meridians”.

“If I want a solution to something, the flash comes in my mind. I try to avoid this, I don't like to just know things. I can get a flash or a sign of the solution, like an intuition, and it will be right”.

"My mother was psychic, but I am not fascinated by it".

When my third eye, flipped it was **like seeing the universe upside down**, with an inward pressure pulling my eyes in. It would happen involuntarily".

"I **would see inside out**, like you think you are looking from the outside, like a **new vision**. I want to tell people what I see, but they will think I am crazy. If you see what people are not seeing, **you are in a different dimension**. It is upside down or inside out, but more than that, **I can't explain it. Because others have never seen that**".

"When a person moves, I see a soft jelly-like colour moving along with him. It is as if someone **flipped or reversed the switch in my mind**. A total change of perception. Somehow, I came out of the normal way of viewing things and the world is different".

"I grew up in poverty. If I see people living that kind of life now, **I want to bring them to the other side**. I am very generous, give a lot of money".

"I like children, but have no time for them".

"If someone annoys me, I don't get angry but I speak out, **tell them straight, tell the truth**".

"I am **not a people person, I don't want to mix in parties or meetings**, I don't go out. I lock myself in my room and read; I am more comfortable if I'm not disturbed".

"I was a good reader, **I love philosophy, things that make the mind digest**, not easy reading.

"**I work very hard, too many hours**; it is my nature, but also life here in Tanzania. I see 200 patients a day, work from 4am to 9pm. On my one day off, I lock myself in a room and do **maths and logic puzzles**. I love that. Otherwise, **I read philosophy and esoteric books which I love**. I love to be alone and read, **I spent too little time with my kids**".

Rx : Krypton 30c one dose, repeat when needed.

Follow up two months later

"Very good improvement all round. My energy is back, drowsiness is gone. I can work again. Memory and concentration are much better. The images of a car coming from the right have gone. The heart pain is much less, and my blood pressure has reduced".

The visual disturbance since the stroke is 90% better, and I no longer miss stuff in my right field of vision. I am less obsessed with maths puzzles and spent a bit more time with kids. I can read and write again. The main thing is I am back to work!"

He remained well over the next 18 months with occasional repetition of the remedy, but fell back into overworking, partly due to external pressure and local circumstance, and partly through his dedication to patients, the huge demand for his service and his addiction to overworking. Perhaps also the money, he had come from poverty. He just couldn't stop working. Two years later he suffered a massive stroke which incapacitated him, and nine months after that he passed away.

Jeremy's Comment:

Sigsbert's noble nature and upright stature, the keen intelligence, the desire to be alone, the tendency to overwork and the love of maths puzzles and esoteric books are all indicative of Krypton. The need to tell the truth is also typical of the nobles.

More important, however, are the strange rare and peculiar features of this case, ones which he had both before and after the stroke. These features fit the proving of Krypton very well. It seems that through meditation something transformed in his “third eye”. His third eye not only opened but “inverted”, as if turning inwards. From then on, he moves into another dimension, something of a mirror image of reality. He can see upside down and inside out. His inner eye has the ability to create a whole image out of half an image. Like Superman, he has x-ray vision and can see under tables.

Exactly the opposite happens after the stroke, where his mind is not able to see half the images, though it still manufactures vision from the right. Of course, these symptoms are quite common after strokes. But Krypton took them away.
